

# Paoli Supported Living Program

Paoli's Supported Living program provides supports and services in small group home settings. Services focus on maximizing a person's independence, establishing and maintaining medical and mood stability, and developing a productive stable activity plan within the community. All services are provided seven days a week, 24-hours a day. Treatment models focus on neurobehavioral management, medical supervision and support. Functional abilities and behavioral status are assessed and individualized treatment plans are designed to facilitate communication, conflict resolution, independence in daily living skills, vocational pursuits, and leisure interests.
